ABOUT US

For over 50 years, we have been working in the screen and digital printing industry, offering innovative processes, high quality results and a constant commitment to research and development to meet the ever-changing demands of the market. Our traditional business model revolves around screen and digital printing, with a production focus on communication and textile printing for the fashion industry. These two different sectors are managed with equal professionalism and quality. Creativity, respect for tradition and innovation are the ingredients that allow us to offer state-of-the-art services with a level of quality that is appreciated and recognised in the market. Our company invests a significant part of its activities in the expansion of production capacity, the acquisition of new technologies and the training of our staff. Since 2022, we have embarked on a journey of digital transformation and launched a requalification project aimed at reducing our company's impact on the environment.

MISSION

To create Beauty and Amazement, fully aware that what we do affects the image of the brands we work for.

VISION

To become the point of reference for our clients, offering increasingly fair, sustainable and high quality services.

OBJECTIVES

- Expansion based on a portfolio of key clients.
- Increase corporate activities and investments to support the development of services.
- Become a single point of contact for our clients

We are one of the few printing companies in Italy able to carry out specialised, technically complex and customised processes on any type of material. The synergy between our screen and digital printing expertise allows us to overcome the limitations of each technique and offer a wide range of creative options and finishes. Our extensive experience in the printing industry means that we fully understand the demands of the market and the needs of our customers. We are able to offer bespoke solutions alongside high quality services.

QUALITY POLICY

In our Quality, Safety and Health Policy, Leografic SRL defines the objectives to be achieved in terms of company reputation, quality and the promotion of safety and health at work, with a preventive approach.

At Leografic SRL we have implemented a Quality Management System in accordance with the requirements of the UNI EN ISO 9001:2015 standard.

Our main objective is to provide all our customers with professional services that meet the agreed requirements and are capable of satisfying their needs.

This policy is an integral part of our overall business strategy and serves as a constant reference for all subsequent operational choices and decisions, with a focus on continuous improvement of the management system.

At Leografic SRL, we adopt an ethical and trustworthy approach to foster long-term working relationships. We believe that integrity and responsibility are essential to create a constructive and rewarding working environment.

Our employees are required to adhere strictly to confidentiality policies to ensure the security of our clients' data and information.

As a company, we are committed to not disclosing the activities or confidential information of the brands that rely on us. We act ethically, honestly and responsibly in all our dealings with clients and business partners. We promote the skills and professional growth of our employees, providing development opportunities and training to help them reach their full potential.

We believe in diversity and inclusion, creating a working environment that encourages collaboration and mutual respect without any form of discrimination.

We support a fair pay policy, ensuring that our employees are appropriately rewarded for the work they do.

We operate in compliance with applicable laws and regulations, always respecting market rules and ethical business practices.

CERTIFICATION GOTS

At Leografic SRL, we are making significant progress towards greater sustainability and reduced environmental impact. A key element of this transformation is the prestigious GOTS (Global Organic Textile Standard) certification, which demonstrates our tangible commitment to ecological production. GOTS certification enables us to offer textile prints made exclusively from organic raw materials, creating common ground with our customers and working together responsibly to preserve the environment. GOTS certification is a tangible symbol of our commitment to sustainable production, aligned with our customers' needs and our shared responsibility to the environment.
